$$Z_{\Omega} = V_{.(id)}; \Rightarrow Z_{\Omega} = Z_{.(id)};$$
Ejemplo

 $Z_{.opr} = Z_{.op1};$

 $V_{.(id)} = Z_{\Omega}; \rightarrow Z_{.(id)} = Z_{\Omega};$

$Z_{.opr} = Y_{.op1};$ \Longrightarrow

$$V_{\Omega} = V_{\Omega}; \rightarrow \epsilon$$

Ejemplo

F_{.opf} = F_{.opf}; ⇒

$Z_{\Omega} = \&V_n; \Rightarrow Z_{\Omega} = Z_{\text{top}};$ $Z_{\Omega} += n;$

Ejemplo
$$Z_{ma} = \delta Y_0;$$

$$Z_{.op1} = \&Y_8;$$

$$\Rightarrow \qquad Z_{.op1} = Z_{:top};$$

$$Z_{.op1} += 8;$$

$$Z_{\Omega} = \&V_{n}[\langle vindx_{1} \rangle]; \Rightarrow Z_{.indr} = \langle vindx_{1} \rangle;$$
 $Z_{\Omega} = \&V_{n};$
 $Z_{\Omega} += Z_{.indr};$

Ejemplo

$$Z_{.op1} = \&Y_{8}[13];$$
 $Z_{.indr} = 13;$ $Z_{.op1} = \&Y_{8};$ $Z_{.op1} += Z_{.indr};$

$$Z_{\Omega} = \&V_n \$ k_1 \langle dims_1 \rangle [\lambda_1] [\lambda_2] \Rightarrow Z_{.ind1} = k_1;$$

$$Z_{.ind2} = \lambda_1;$$

$$Z_{.indr} = Z_{.ind1} * Z_{.ind2};$$

$$Z_{.ind1} = \lambda_2;$$

$$Z_{.indr} += Z_{.ind1};$$

$$Z_{\Omega} = \&V_n \langle dims_1 \rangle [Z_{.indr}]$$

 $Z_{.ind1} = 12;$

 $Z_{ind2} = 7;$

 $Z_{.indr} = Z_{.ind1} * Z_{.ind2};$

Ejemplo

 $Z_{.op1} = \&foo$12$15[7][Y_{23}][4];$

 $Z_{indr} += Z_{ind1};$

 $Z_{.op1} = \&foo[Z_{.indr}];$

```
|\langle simb_1 \rangle| \Rightarrow c donde c es el \langle natural \rangle que representa el código del símbolo Unicode \langle simb_1 \rangle.
```

Ejemplo

:ajustar:

```
Sea
```

```
}
y Ξ cualquier Ω distinto de :change.
```

:ajustar:{
 texto1

■ Si texto₁ no es ⟨preinstrucciones⟩:

Si texto₁ es (preinstrucciones):

```
:ajustar: \{ \Rightarrow \epsilon \}
:ajustar: \{ \langle preinstrucciones_1 \rangle \rangle 
x^{\Xi}
\}
x^{\Xi}
```

donde texto₂ es (preinstrucciones), resultado de expandir macroinstrucciones en texto₁.

$$Z_{\Omega} = V_{n}\langle dims_{1}\rangle\langle indxs_{1}\rangle; \Rightarrow Z_{.adjp} = \&V_{n}\langle dims_{1}\rangle\langle indxs_{1}\rangle; \\ :ajustar: \{ \\ Z_{\Omega} = Z_{.change}; \}$$

Ejemplo

$$Z_{.op2} = Y_7;$$

$$Z_{.adjp} = &Y_7;$$

$$\Rightarrow Z_{.adjp} = &Y_7;$$

$$\Rightarrow Z_{.op2} = Z_{.change};$$
}

$$V_{n}\langle dims_{1}\rangle\langle indxs_{1}\rangle = Z_{\Omega}; \Rightarrow Z_{adjp} = \&V_{n}\langle dims_{1}\rangle\langle indxs_{1}\rangle;$$

$$:ajustar:\{$$

$$Z_{.change} = Z_{\Omega};$$

$$\}$$
